Please join us again this year as we celebrate women's accomplishments and bring women's issues to the forefront.

Professor Creese will be speaking on the updated report on women's economic inequality. The report will be released publicly at a press conference immediately following our IWD Breakfast.

Tickets are only \$10 each (8 seats per table), with proceeds going to support women's scholarships to the 2008 Summer Institute for Union Women.

Please help us make this year's IWD Breakfast accessible to community women by purchasing "one-for-all" - buy one ticket or table for your members and a second to be donated to community women.
